voluntary transaction, the county is free to negotiate a grant amount with a landowner (up to the *maximum* amounts provided in s. ATCP 50.42). But if a county *requires* a landowner to install a conservation practice, the county must comply with applicable cost-share requirements under subs.

(1) and (2). The cost-share grant may come from one or more sources, as provided under sub. (7).

- (3) LANDOWNER'S COST. A landowner's cost to install and maintain a conservation practice includes all of the following that apply:
- (a) The landowner's reasonable and necessary expenditures to install and maintain the conservation practice. This includes eligible installation costs identified in subch. VIII, and costs for engineering services under s. ATCP 50.40(7).
- (b) The reasonable value of necessary labor, equipment and supplies provided by the landowner in the installation and maintenance of the conservation practice. This does not include normal operating routines such as clean-outs of barnyards, storage facilities and gutters.
- (c) The reasonable value of mowing provided by the landowner, up to a maximum of 2 mowings per year and \$10 per mowing, if that mowing is necessary to maintain the conservation practice.
- (d) The landowner's cost to take or keep land out of agricultural production, if the landowner must take or keep more than ½ acre out of agricultural production in order to install or maintain the conservation practice. The landowner's cost, determined on the date of the cost-share contract, equals the sum of the annual costs that the landowner will incur over the maintenance period specified in the cost-share contract. The landowner's annual cost, for each year of the maintenance period, equals the number of affected acres multiplied by the per-acre weighted average soil rental rate in the county on the date of the cost-share contract.

NOTE: If a county requires a landowner to install a conservation practice that changes an "existing" agricultural operation, the county must offer cost-2 3 sharing. If the cost-shared practice is a capital improvement, the 4 landowner must agree to maintain it for at least 10 years. The cost-share contract must pay the required minimum share of the landowner's cost 5 under sub. (3). If the landowner must take more than ½ acre out of 6 production, the landowner's cost includes the cost of taking that land out 7 strayed according to the control of the self-time of a signer particle and 8 9 After the contract maintenance period has expired, the landowner may 10 resume production in the affected area unless parties enter into a new cost-11 share contract to keep the land out of production (see sub. (5)(a)). The 12 parties may negotiate the term of each contract, as long as each contract 13 14 specifies a maintenance term of at least 10 years. If the landowner wishes to take advantage of the CREP-equivalent payment for riparian land under 15 16 sub. (4), the landowner must agree to keep the land out of production for at least 15 years, or in perpetuity. 17 18 The United States department of agriculture, farm service agency, has 19 determined the weighted average soil rental rate for each county, on form 20 CRP-2. 13	county land conservation committee shall establish and maintain a county soil and water
14	conservation program. The program shall include all of the following elements:
	。
15	(a) A county land and water resource management plan under s. ATCP 50.12,
16	and a program to implement that plan.
17	(b) County soil and water conservation standards, and a program to implement
18	those standards.
19	NOTE: A county's land and water resource management plan under s. ATCP

23	program under ch. 91, Stats. See s. ATCP 50.14 and subch. VII related to
24	county ordinances.
25	
26	(c) A program to prepare and submit annual reports under s. ATCP 50.18 and
27	annual grant applications under s. ATCP 50.20.
28	(d) A program to receive, distribute and account for soil and water resource
29	management grants under this chapter.
30	(e) A procedure to ensure that conservation practices funded under this chapter
31	are designed and installed according to this chapter.

1	(f) An accounting and recordkeeping system under s. ATCP 50.22.
2	(g) An information and education program to promote effective soil and water
3	resource management.
4	(h) Other program elements, if any, required under this chapter.
5	(2) COORDINATION. A county land conservation committee shall, to the extent

5	the department seeks the LWCB's final recommendations.
	NOTE: If the department makes material revisions to the preliminary draft plan
6	before seeking final LWCB recommendations, the department will re-
7	issue the revised draft at least 30 days before the LWCB makes its
8	recommendations.
9	
10 11	(c) The department shall adopt an annual grant allocation plan by December 31
12	of the year preceding the calendar year to which the plan applies. The final plan may
13	include changes recommended by the LWCB, as well as updated estimates of project
14	costs. The department shall provide copies of the allocation plan to DNR, the LWCB and
15	every county land conservation committee. The department shall report to the LWCB

20	shall pay out grant funds according to this chapter and the grant contract.
21	ATCP 50.30 Grant priorities. When preparing an annual grant allocation plan
22	under s. ATCP 50.28, the department shall consider all of the following:
23	(1) COUNTY PRIORITIES. The department shall give high priority to maintaining
24	county staff and project continuity. The department shall consider county priorities
25	identified in the county grant application under s. ATCP 50.26 and in the county's

13	(3) OTHER FACTORS. The department may consider the following factors when
14	determining grant allocation priorities:
15	(a) A county's demonstrated commitment to implementing the approved land and
16	water resource management plan under s. ATCP 50.12, and the strength of the
17	documentation supporting that plan.
18	(b) A county's demonstrated commitment to implementing the farm conservation

 9 (6) GRANT PAYMENTS. (a) The department shall make grant payments under
- sub. (1) on a reimbursement basis. The department shall pay reimbursement within 30
- days after the county land conservation committee files a valid reimbursement request
- under sub. (7). The department shall pay reimbursement, at the rate provided under sub.
- 13 (8), on reimbursable expenditures identified in the reimbursement request. Total
- payments may not exceed the total grant award under sub. (1).
- 15 (b) The department may reimburse eligible costs that are incurred during the
- grant year and paid by January 31 of the year following the grant year. The department
- may not reimburse any costs incurred after December 31 of the grant year, or paid after
- 18 January 31 of the following year. Unspent funds remain with the department, for
- 19 distribution under a future annual allocation plan.
- 20 (c) If a county redirects the unused portion of an annual staffing grant for cost-
- share payments to landowners, as provided in sub. (11), the department shall reimburse
- county cost-share payments to landowners according to s. ATCP 50.34.
- 23 (7) REIMBURSEMENT REQUESTS. (a) To obtain a reimbursement payment under
- sub. (6)(a), a county land conservation committee shall file a reimbursement request on a
- 25 form provided by the department. A county may file a reimbursement request on or after

- June 1 for costs incurred before June 1. A county may file a second reimbursement
- 2 request for costs incurred on or after June 1. A county may file no more than 2
- 3 reimbursement requests, and shall file all reimbursement requests by February 15 of the

- 2. \$12,000 if the cost-share contract is signed on or after January 1, 2005, but
- before January 1, 2010.
- 3. \$14,000 if the cost-share contract is signed on or after January 1, 2010.
- 19 (d) Specifications for the cost-shared practice, including engineering
- 20 specifications for any agricultural engineering practice identified under s. ATCP
- 21 50.46(2).
- 22 (e) The total estimated cost of the cost-shared practice. The total cost may
- 23 include the cost to install the practice and the cost to maintain the practice for the period

1	of time specified in the contract. Costs may include any applicable costs under sub. (4).
2	A county shall use applicable cost containment procedures under sub. (16) when
3	determining the estimated cost.
4	(f) The cost-share rate or amount. The cost-share rate or amount may not exceed
5	the rate or amount allowed under s. ATCP 50.42.
6	(g) The amount, if any, that the county land conservation committee will pay for
7	engineering services under sub. (7).
8	(h) A timetable for constructing and installing the cost-shared practice.
9	(i) Applicable conditions required under this section.
10	(j) The period of time for which the landowner agrees to maintain the cost-shared
11	practice in return for the cost-share grant. The landowner shall agree to maintain the
12	cost-shared practice for at least the period of time required under subch. VIII, or replace
13	it with an equally effective practice. The landowner shall refrain, during the maintenance
14	period, from any action that may reduce the effectiveness of the cost-shared practice.
15	NOTE: Subchapter VIII specifies a minimum maintenance period of 10 years for
16	most conservation practices. But it does <i>not</i> specify a minimum
17	maintenance period for the following "soft" practices:
18	• Contour farming (ATCP 50.67).
19	Cover and green manure cron (ATCP 50.68).
20 21	Nutrient management (ATCP 50.78).
22	Posticido monogement (ATCP 50 79)
23	 Residue management (ATCP 50.82).
24	• Strip-cropping (ATCP 50.89).
25	
26	(k) An agreement that the landowner will repay the full amount of the cost-share
27	grant immediately, upon demand by the county land conservation committee, if the
28	landowner fails to operate and maintain the cost-shared practice according to the contract.
